**Review your information on the next page before clicking submit!!**

## Photograph Requirement

Please Be sure to have passport pictures of all persons on this application:

### **Diversity Visa Program Entrants Photo Requirement**

If you are entering the Diversity Visa (DV) Program online, you must upload your digital image as part of your entry. Your digital image must be:

- In JPEG (.jpg) file format
- Equal to or less than 240 kB (kilobytes) in file size
- In a square aspect ratio (height must equal width)
- 600x600 pixels in dimension

Do you want to scan an existing photo? In addition to the digital image requirements, your existing photo must be:

- 2 x 2 inches (51 x 51 mm)
- Scanned at a resolution of 300 pixels per inch (12 pixels per millimeter)

### **Do you want to take the photo yourself?**

While we recommend you use a professional visa photo service to ensure your photo meets all the requirements, you may take the photo yourself. Photos must not be digitally enhanced or altered to change your appearance in any way. Please review the following technical requirements and references for guidance on taking your own photo.

- [Photo Composition Template](#)
- [Digital Image Requirements](#)

Winning is not guaranteed or promise of any immigration benefit. This is my personal interpretation and understanding of the form and does not constitute a legal advice. Use it at your own will and no acceptance of liability implied. ©Wofoy Holdings LLC

### Use the Department of State's free photo tool to:

- select a digital image stored on your computer
- resize and rotate it if necessary
- crop it to a square image of exactly 600 x 600 pixels, and
- save it to your computer for printing

This tool requires [Adobe Flash Player 10 or later](#).

### Taking photos of your baby or toddler

When taking a photo of your baby or toddler, no other person should be in the photo, and your child should be looking at the camera with his or her eyes open.

**Tip 1:** Lay your baby on his or her back on a plain white or off-white sheet. This will ensure your baby's head is supported and provide a plain background for the photo. Make certain there are no shadows on your baby's face, especially if you take a picture from above with the baby lying down.

**Tip 2:** Cover a car seat with a plain white or off-white sheet and take a picture of your child in the car seat. This will also ensure your baby's head is supported

### Change of Appearance

If your photo(s) or digital image does not reflect your current appearance, even if it is not older than 6 months, the U.S. embassy or consulate will request that you provide a new photo with your application.

Applicants will be requested to obtain a new photo if they have:

- Undergone significant facial surgery or trauma
- Added or removed numerous/large facial piercings or tattoos
- Undergone a significant amount of weight loss or gain
- Made a gender transition

Generally, if you can still be identified from the photo in your visa application, you will not need to submit a new photo. For example, growing a beard or coloring your hair would not generally be considered a significant change of appearance.

If the appearance of your child under the age of 16 has changed due to the normal aging process, he or she will generally not have to provide a new photo. However, the acceptance of your photo or digital image is at the discretion of the U.S. embassy or consulate where you apply.
